PERSONAL STATEMENT

Innovative .NET Developer with 8+ years of experience in software development and fintech solutions. Proven track record in managing complex projects and delivering high-quality software. Seeking a dynamic role to leverage modern technologies in impactful projects.

SKILLS

Programming Languages: C#, VB, Dart (Flutter), TypeScript

Frameworks & Libraries: .NET 6+, ASP.NET, .NET Core, Entity Framework, ABP framework, Angular

Databases: Microsoft SQL Server (MSSQL), MySQL, PostgreSQL, SQLite, Redis

Software Architecture: AWS (EC2, Lambda, RDS, S3, CloudWatch, IAM), CI/CD Pipelines

Cloud & DevOps: Domain-Driven Design (DDD), Clean Architecture, Microservices

Web Technologies: HTML, CSS, JavaScript, TypeScript, JQuery, AJAX

Development Tools: Git, TortoiseGit, GitHub, Bitbucket, Jenkins, SonarQube, Blackduck

Project Management & Collaboration: Agile Methodology, Jira

Security & Compliance: OAuth, JWT, 3DS, Banking Security Standards

Other Technologies: Dapper, LINQ, AutoMapper, SignalR, RabbitMQ, RESTful API, Model-View-Controller (MVC), xUnit, NUnit, log4net, NLog, Secure File Transfer Protocol (SFTP), RSA encryption, Reporting (CSV, Excel, PDF)

PROFESSIONAL EXPERIENCE

.NET Developer (Freelance)

March 2025 -August 2025

- Designed and developed a **Tuna Management System** to streamline inventory and operational processes.
- Implemented **LDAP-based access control** for secure authentication and user management.
- Optimized database operations and UI interactions using **.NET 8, MSSQL, and JavaScript**, ensuring smooth performance and scalability.
- Technologies Used: .NET 8, MSSQL, JavaScript, LDAP

.NET Developer (Remote) - Teromac Technologies Inc, New York

October 2023 - January 2025

- Integrated **Square API** for seamless transaction processing in **TWG system**, and generated various reports utilizing .NET 6, Windows Services, Batch, MSSQL, SFTP, and AWS EC2, ensuring optimized data processing.
- Implemented secure **data transfers via SFTP** and optimized **database performance** for MSSQL
- Developed and managed **Flash System** using .NET 8 and **Angular** for real-time data processing.
- Technologies Used: .NET 8, .NET 6, AWS (EC2, S3, CloudWatch), Windows Services, Batch Scripting, Microsoft SQL Server, SFTP, CI/CD, Angular

.NET Developer - 2C2P, Yangon

March 2022 - September 2023

- Integrated the 123 payment service and its integration with Hello Clever - Australia.
- Led the development and maintenance of the Easy2Send Admin Portal.
- Integrated GCash - Philippines and AMK - Indonesia with Easy2Send and EasyWallet.
- Upgraded Global Remittance Platform integrations to .NET 6.
- Migrated SMS Gateway from .NET Core 2.1 to .NET 6 with clean architecture principles.
- Technologies Used: .NET 6, .NET 5, .NET Core, Microsoft SQL Server, MySQL, AWS Lambda, AWS EC2, AWS S3, CloudWatch, RabbitMQ, Blackduck, SonarQube, Jenkins, RESTful API, 3DS

Senior Application Developer - SourceCode Co., Ltd, Yangon

February 2020 - February 2022

- Developed a comprehensive marine system for the TATSUMI Marine System project.
- Built the Myanmar Power Spectrum system for meter reading and billing.
- Designed and implemented Medi Myanmar Group POS system for over 100 branches.
- Developed mobile applications using Flutter and SQLite.
- Technologies Used: Flutter, SQLite, .NET Framework, MSSQL, MySQL, RESTful API

Senior Developer - SystemEXE Myanmar Co., Ltd, Yangon

August 2019 - February 2020

- Managed the Workflow Compass Project with MVC 5 and .NET Core.
- Developed **ERP systems** to enhance business automation and data integrity.
- Technologies Used: MVC 5, .NET Core, PostgreSQL, Reporting

Software Engineer - ACE Data Systems Co., Ltd, Yangon

December 2014 - May 2018

- Contributed to the evolution of the Retail Management System.
- Developed Distribution Management System and Gold & Jewel System.
- Integrated new functions like Accounts Payable and Receivable.
- Technologies Used: C#, .NET Framework, MSSQL, Visual Basic

Junior Developer - ACE Data Systems Co., Ltd, Yangon

March 2014 - November 2014

- Contributed to the Myanmar Timber Enterprise project with ASP.NET and MSSQL.
- Technologies Used: ASP.NET, Microsoft SQL Server

EDUCATION

Bachelor of Arts in English

Yangon University of Distance Education, Yangon
2013 - 2017

Diploma in Web Development

Yangon University of Distance Education, Yangon
November 2017 - August 2018

HIGHLIGHTED PROJECTS

TWG System | Teromac Technologies - Developed Square API integration for seamless financial data collection.

Square | Teromac Technologies: Developed TWG system with Square API.

123 Payment | 2C2P: Managed and optimized the 123 payment service.

Easy2Send + EasyWallet | 2C2P: Integrated GCash and AMK for international money transfers.

TATSUMI Marine System | SourceCode: Developed a marine system for cargo and ship management.

Retail Management System | ACE Data System: Developed multi-store POS and business automation solutions.
